

The **MULTI PURPOSE TENT** is the ideal temporary structure for a field hospital, school or office. This tent is standard available in 6 or 8m spanwidth, and expandable per 3m.

This tent is made with high quality aluminium and has 650gr/m² fireproof PVC covers. Due to the modular features the tent can easily be relocated and used for other purposes. The Multi Purpose tent uses a kederprofile technique that comes from the professional tent industry.

The unique Vario-Nut feature makes it possible to fixate shelves, medical instruments and other objects to the legs and roof beams of the tent, without the use of any tools.
